We invite you to review and comment on a proposed Hazardous Waste Permit for Evergreen Oil, Inc., located in Newark. The facility receives, stores, recycles, and transfers used oil; and stores and transfers antifreeze. Evergreen has requested a major expansion and modifications to the facility, both in capacity and the types of waste managed. The proposed permit, if approved, would allow the facility to expand its operations significantly. Our agency, the California Department of Toxic Substances Control (DTSC), regulates the generation, storage, treatment and disposal of hazardous waste in California. The proposed Hazardous Waste Permit is available for public review during a 60-day comment period from May 28 through July 28, 2004. The draft permit and related documents are at the Newark Public Library at 6300 Civic Terrace Ave. in Newark and at our office at 1011 N. Grandview Ave. in Glendale. To view them at our office, call Jone Barrio at (818) 551-2952 to make an appointment.

HOW YOU CAN TELL US WHAT YOU THINK: We want to know what you think of the permit proposal and we encourage your participation. In addition to the public comment period, we are holding a public hearing and open house to give you more information, answer questions, and take oral and written comments. The open house will be from 5 p.m. to 7 p.m., and the public hearing will begin at 7:00 pm on Tuesday, June 29, 2004 at Silliman Activity Center (see address above). During the comment period, written comments on the proposed Hazardous Waste Permit must be delivered or emailed no later than July 28, 2004 to Mr. Mike Eshaghian, DTSC, 1011 North Grandview Ave., Glendale, CA 91201, email: meshaghi@dtsc.ca.gov.
